Competency Assurance

Workforce Development

Sub-contractor Management

OPERATE SAFELY AND EFFICIENTLY BY IDENTIFYING YOUR RISKS AND MITIGATING THEM

Kahuna Workforce Solutions

Built with compliance and workforce management in mind, Kahuna achieves something rare in heavy industry. It enables those working the day-to-day operations of heavily regulated industries to assign, assess, track, and manage the performance and skill sets of their workforce. Whether your team is dispersed across a plant or a larger geographic area, Kahuna's competency management platform helps you reduce risk, prove compliance, build highly qualified teams, and enable faster decision making to improve the productivity and safety of your workforce.

SEMPCheck

SEMPCheck integrates proprietary, configurable software applications with internal processes driven by proven expertise. The resulting package of offerings and quality control oversight is unmatched in the life cycle of oil and natural gas commercial ventures.

SEMPCheck's best in class applications:

- Have been designed by industry professionals for use by industry professionals
- Incorporate SEMPCheck's table-top audit processes of your critical equipment, supporting drawings, and performance history
- Cross reference table-top audits against applicable regulations to ensure compliance

SEMPCheck's solutions drive best practice performance across all of your assets and organizations.

RiskPoynt

Leader in operational efficiency and risk management, RiskPoynt is a best in class, SaaS-based Barrier Management application that goes beyond simple visualization of risk and allows proactive management of mitigation activities.

RiskPoynt goes beyond simple visualization of risk and allows proactive management of mitigating activities to lower risks:

- Global View of Asset Integrity Barriers
- Monitor Risk Mitigation Tasks
- Record of Adherence to Mandated Risk Control Processes
- Real Time Integration to Systems That Identify Risk and Reliability of Equipment
- Drive Collaboration to Prioritize Work
